

Customize Your AccuPay Experience with Powerful Tools for **Payroll/Tax, HR, Time, and Benefits.**

isolved is a single solution for all your mission-critical tasks: HR, payroll/tax, time, ACA and benefits. The solution is built on workflows to automate tasks, increase efficiencies, improve productivity, and boost employee engagement.

Payroll and Tax

Built from the ground up in the cloud, isolved is the solution for all your payroll challenges. End the multi-location, multi-state tax filing nightmare and handle garnishments, direct deposit and paycards with ease. All data is secure and protected. Combine with Employee Self-Service to empower employees and create efficiencies.

Onboarding

Streamline new hire paperwork and processes with isolved's Onboarding platform. New hires can access company information and forms before the first day of work while customized workflows ensure all documentation goes to the right place.

HR

isolved streamlines your people data, provides insight to your workforce, identifies trends and drives performance. Manage and strengthen your HR with configurable reporting, executive dashboards, and streamlined workflows. The HR functionality also empowers your employees to manage their own information, freeing up time for HR teams to focus on strategy.

Time

isolved enables you to collect, manage, and process employee time and attendance data more effectively. Track and monitor meals, breaks, and overtime; use geofencing to track employee locations for clocking in and out; calculate and manage comp time; and monitor errors for complete and accurate time cards. isolved's time and attendance is native to the isolved platform, eliminating importing, exporting, and duplicate data entry. It's simple, fast and efficient.

- Track mandated certifications
- Track disciplinary actions
- Manage jobs and salaries
- Manage awards, education and company assets

- Rules-driven approach to earning codes
- Wide variety of time collection options
- Build shifts and schedules for employees
- Powerful user interface simplifies one-touch punching

ACA

isolved's single database streamlines the tracking of employee hours for annual ACA reporting, pulling information directly from the payroll and/or time applications. With robust reporting to include any-time previews of populated ACA forms and backed by AccuPay's team of ACA experts, employers will find that ACA reporting has never been easier.

Benefits

Smooth out the complex task of managing Employee Benefits with isolved. Set up your benefit plans once, driving enrollment and deductions throughout the system. You can also use available carrier connections to communicate all life events and other changes. With isolved, managing employee benefit enrollment is easier than ever. The user-friendly benefits eligibility and enrollment functionality offers a more engaging and intuitive experience, allowing employees to navigate step-by-step through the process.

isolved is a comprehensive, completely scalable HCM platform for all your mission-critical workforce tasks. Its personalized user experience exceeds expectations and is performance-ready on any device.
